

Kitchen Kettle Village Chooses NE Time Systems

For Kitchen Kettle Village, calculating employee hours used to require nearly a full day's effort each pay period. Thanks to the workforce management solution provided by NE Time Systems, this process now involves less than an hour.

"What used to take almost a full day now takes less than an hour."

Kitchen Kettle Village is a fun shopping destination, visited by tourists from around the world. What began in 1954 in a two-car garage has grown to 42 stores, 2 restaurants and 17 lodging rooms. At the heart of the village is the Jam and Relish Kitchen, which is the hub of activity. Here the locals cook up homemade Pennsylvania Dutch sweets like jelly, jam and butter, fresh baked goods like pie and cookies, and delicious canned goods like relish, salsa and pickles. And they do it all right before your eyes!

Prior to their partnership with NE Time Systems, all 250 Kitchen Kettle Village employees manually recorded their daily hours on paper documents. These hours were calculated by each department, delivered to the accounting division, and then manually recorded into the payroll system. When in search of a system not only capable of recording hours, but also capable of downloading hours directly into the payroll system, Kitchen Kettle Village chose NE Time Systems and the NOVAtime solution. The results have been "perfect for our needs," says Tom Sielski, Director of Fiscal Reinvention.

From a support standpoint, the executive staff at Kitchen Kettle Village feels as though the team at NE Time Systems has been exceptionally knowledgeable, timely and professional. NE Time Systems provided a smooth implementation process and an enhanced system execution. The total solution has resulted in significant benefits for Kitchen Kettle Village.

"What used to take almost a full day now takes less than an hour," says Sielski. Time saved yields increased effectiveness and happier customers; an equation that is hard to argue with. "I would recommend NE Time Systems to anyone considering a time and attendance management system," continues Sielski. Similarly, NE Time Systems recommends Kitchen Kettle Village to anyone in search of the best homemade Pennsylvania Dutch sweets in Lancaster County.
