Wild Turkey Distillery Utilizes the NOVAtime 4000 SaaS Workforce Management Solution and NT6500 Fingerprint Time Clocks to Automate Business Processes

Wild Turkey Distillery Utilizes the NOVAtime 4000 SaaS Workforce Management Solution and NT6500 Fingerprint Time Clocks to Automate Business Processes

DIAMOND BAR, CALIF. (PRWEB) November 27, 2013 -- NOVAtime Technology, Inc. (http://www.novatime.com), a leading provider of enterprise Time and Attendance / Workforce Management solutions, is happy to announce that Wild Turkey Distillery uses the NOVAtime 4000 SaaS Workforce Management Solution with innovative NT6500 fingerprint time clocks to successfully manage their workforce and labor hours in real-time.

Wild Turkey is a brand of Kentucky bourbon whiskey owned by Campari Group. The Wild Turkey Distillery, located in Lawrenceburg, Kentucky, utilizes top-quality ingredients, a distinct aging process, and a special distillation procedure to produce a wide variety of award-winning, world-famous bourbons. With Wild Turkey's success came growth to the company, and therefore, the need for an enhanced ability to manage employees and labor costs. To meet these needs, in early 2013, Wild Turkey Distillery selected and implemented the NOVAtime 4000 SaaS Workforce Management system, along with NT6500 fingerprint data collection terminals.

NOVAtime 4000 is a flexible, scalable, and user-friendly workforce management solution complete with time, attendance, scheduling, accrual, leave, and reporting features that operate in real-time. Wild Turkey is currently utilizing NOVAtime 4000 for approximately 80 union employees, and is continuing to add more employees to the system daily, with final usage to be about 100 employees. Shannon Meriwether, Human Resources/Payroll at Wild Turkey, states "We use NOVAtime 4000 for everything. We use it for punching in and out, vacation accrual, and the Point System for absenteeism."

Prior to implementing NOVAtime 4000, Wild Turkey was utilizing paper time cards, which was time-consuming and difficult to track. NOVAtime 4000 streamlines time and attendance processes, allowing for more efficient management of a company's workforce. Ms. Meriwether acknowledges the benefits of an automated timekeeping system, saying, "As employees punch in and out, information comes straight to you. And NOVAtime's Attendance Points System keeps track of absenteeism and helps supervisors manage disciplinary situations. It makes it easier for supervisors to manage employees." Supervisors also use the system to view employee vacation balances, and approve employee-submitted leave requests.

Additionally, NOVAtime 4000 provides a full audit trail, which assists in maintaining compliance with business rules and labor laws. "NOVAtime 4000 provides a significantly better audit trail for punching in and out than paper time cards," says Ms. Meriwether. "Employees do time punching down to the minute; we like this because we're not overpaying or underpaying anybody." She continues, "We like that the system tracks vacation and personal time so we know that we haven't possibly overpaid somebody. We could have missed that on our old time card system." Wild Turkey utilizes ADP payroll, and NOVAtime 4000 is able to export accurate time and attendance information for payroll processing.

Integrated Time Systems (www.integratedtime.com), a premier authorized NOVAtime reseller, performed the implementation. Jeff Neduzak, Support Services Manager at ITS, "has been really pleased to meet the staff at

Wild Turkey. The implementation went well, and it was a great experience for Integrated Time Systems." Ms. Meriwether agreed, "It was great. Jeff and the team have been wonderful in helping our employees make the switch from the paper time card system. If there are any issues, they are always there to help us out with anything."

While searching for an automated time and attendance solution, Wild Turkey had demoed several different systems, before ultimately deciding on NOVAtime 4000. Ms. Meriwether explains, "NOVAtime's flexibility was better suited to meet our needs than the other systems. It was more user-friendly than the others, and much easier to understand too. Having good customer support was a big deal for us as well, and Integrated Time Systems has been great." NOVAtime and Integrated Time Solutions have been excited about this project, as well as the opportunity to build lasting a partnership with a great client. Wild Turkey indicated that they would recommend NOVAtime to anybody looking for an automated workforce management / time and attendance solution.

About NOVAtime
Established in 1999, NOVAtime has helped over 10,000 organizations around the world benefit from their use of NOVAtime Workforce Management solutions. With corporate offices located in Diamond Bar, California, NOVAtime utilizes the latest advancements in technology for its complete suite of Workforce Management solutions. This has enabled NOVAtime to serve companies with complex data collection requirements, including badge/biometric time clocks, browser-based data collection, telephone features, PDA scanners, etc. NOVAtime offers solutions for scheduling, labor allocation, job costing, work-order management, and cost center allocation.
