

NOVAtime Technology, Inc. Announces Release of Rugged Mobile NT65M Handheld Barcode Scanner / Time Clock

NOVAtime's newly released compact, portable, [rugged NT65M two-dimensional barcode scanners](#) supports GSM cellular and Wi-Fi data communication

DAMOND BAR, CALIF. ([PRWEB](#)) February 17, 2015 -- NOVAtime Technology, Inc. (<http://www.novatime.com>), a leading provider of enterprise Time and Attendance / Workforce Management solutions, has announced the official release of their latest smart time clock—the [portable, rugged NT65M](#). The newly released NT65M support powerful 2D imager scanning, enabling quick and efficient scanning of traditional and two-dimensional barcodes (e.g. QR codes).

Mr. Brian Harris, Vice President of Client Services at NOVAtime, states, “We’re happy to deliver a rugged, mobile barcode scanner that supports GSM. Insert a SIM card from a GSM phone, and it pushes time punches and labor tracking data into the NOVAtime system in real time. It’s an ideal solution for a mobile workforce.”

The NT65M supports a variety of labor tracking functions, including: punch, job transfer, and view timesheet in real time. Optionally, it can be configured to display an employee photo after a successful punch scanning.

The certified Wi-Fi and Wireless WAN capabilities in NT65M provide secure communication for real-time data transfer and up-to-date information, while the IP67 rating ensures complete protection against dust and water damage. With high security and a rugged design, the NT65M provides 24/7 worry-free usage in any job environment.

NOVAtime’s continual research and development utilizes the latest technology to create cutting-edge software and hardware for all of their customers. Gil Sidhom, Vice President of R&D of NOVAtime, states, “NT65M went through an extensive development and testing of both hardware and software elements. We’re proud to say it includes a three-month beta period at a venue management company of a prominent NFL franchise.”

About NOVAtime
