

## **Delaware Foot and Ankle Group Implements NOVAtime SaaS Workforce Management Solution and Saves Payroll Processing Time**

*NOVAtime Technology, Inc. has announced that Delaware Foot and Ankle Group has automated its time and attendance processes by utilizing the NOVAtime SaaS Workforce Management system.*

([PRWEB](#)) December 22, 2015 -- NOVAtime Technology, Inc. (<http://www.novatime.com>), a leading provider of enterprise Time and Attendance / Workforce Management solutions, has announced Delaware Foot and Ankle Group successfully implemented [NOVAtime SaaS Workforce Management Solution](#)

For over 22 years, Delaware Foot and Ankle Group has been serving the needs of patients by providing comprehensive foot and ankle care. The group provides diagnosis and treatment of the painful foot and ankle with a focus on foot and ankle surgery. Delaware Today has rated Delaware Foot and Ankle Group in the “Top Docs” section of their publication. In order to improve how they track their employees’ time and attendance, Delaware Foot and Ankle Group implemented the NOVAtime SaaS Time and Attendance / Workforce Management solution.

Prior to implementing NOVAtime, Delaware Foot and Ankle Group utilized an older stand-alone time clock in order to record punches on paper punch cards. Michele Tobiason, MBA, Practice Manager, explains, “This previous method was extremely time consuming. Forgotten punches were a challenge to identify and resolve. We had separate spreadsheets for everything, and we had to calculate everything manually. Preparing totals for our accountant in order to process payroll was not very easy.”

Beyond this, Ms. Tobiason continues, “Employees didn’t enjoy it much. They wanted more information that was not readily accessible, such as whether their time was over or under, or whether they had enough PTO time. They were excited to try something new.”

NOVAtime is workforce management software complete with time, attendance, leave, accruals, and reporting features. Ms. Tobiason shares, “I like it very much. Employees now hold themselves accountable. They can see everything that they want to see, and they love it. It is an excellent system for businesses like ours.” What she finds most compelling about the software is the ease of use, saying, “It is very user-friendly, and it has relieved me from spending 3 hours per pay period on payroll. Now, the process takes me only 20 minutes.”

NE Time Systems, a premier authorized NOVAtime reseller, performed the implementation for Delaware Foot and Ankle Group. Ms. Tobiason was impressed by the NE Time Systems team’s rapid response to questions, stating, “I have never had this level of responsiveness with any other product I have used.

NOVAtime Technology, Inc. and NE Time Systems are excited to have Delaware Foot and Ankle Group as a customer and hope to continue providing services to help them do more of what they do best.
