

The XCEL Group Excels at Workforce Management / Time and Attendance Tracking and Reporting with NOVAtime

The XCEL Group loves NOVAtime Workforce Management / Time and Attendance Solutions for reporting and tracking employee punches.

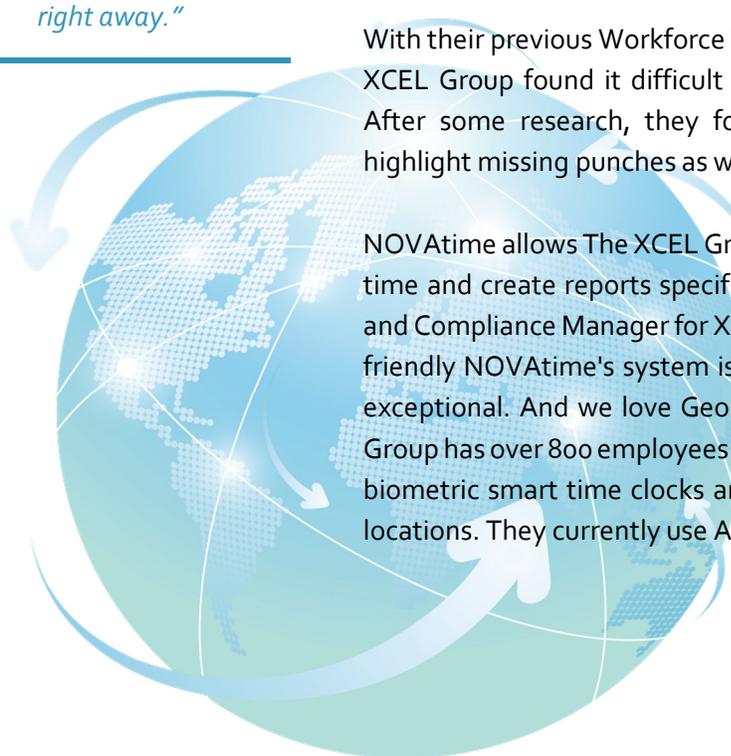

RANCHO CUCAMONGA, CALIF. (PRWEB) August 28, 2018 -- NOVAtime Technology, Inc. (<http://www.novatime.com>), a leading provider of enterprise Workforce Management / Time and Attendance solutions, is pleased to report The XCEL Group's improved employee tracking and reporting with NOVAtime's Workforce Management solutions, as well as its outstanding experience with NOVAtime's customer service.

[The XCEL Group](#) is a staffing firm co-founded by Josh Silvers and Aaron Miller specializing in light industrial, warehouse and distribution positions. With over 45 years of combined experience in management and staffing, they continue to advise and mentor students, entrepreneurs, and business leaders. The XCEL Group offers recruiting and training services, in addition to job placement, and prides itself on placing potential employees in long-term positions that best fit their talents.

"I love how user friendly NOVAtime's system is. The customer service we've received has been exceptional. And we love George. He solves our issues right away."

With their previous Workforce Management / Time and Attendance system, the XCEL Group found it difficult to generate reports and track missing punches. After some research, they found that NOVAtime offered features to help highlight missing punches as well as create customizable, in-depth reports.

NOVAtime allows The XCEL Group to identify and correct missed punches in real time and create reports specific to their workforce. Alejandra Abarca, Training and Compliance Manager for XCEL, reflected on his experience, "I love how user-friendly NOVAtime's system is. The customer service we've received has been exceptional. And we love George. He solves our issues right away." The XCEL Group has over 800 employees using NOVAtime's web portal, seven NT7000 Lite biometric smart time clocks and two NT450 finger/card readers installed in 10 locations. They currently use Avionte for their payroll processing.
